

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## TABLE II.

### VARIATION IN POPULATION SINCE 1871.

---

NOTE.—At the 1871 census the three agencies were not enumerated separately from the districts to which they are attached, and their population in that year is not ascertainable.

Columns 3, 11 and 15 give the figures of the census of 1891 adjusted for changes in the area of districts which occurred between 26th February 1891 and 1st March 1901, and column 6 represents the difference between these adjusted figures and the population at the present census. These adjustments cannot, however, be carried further back. The figures in the columns headed 1881 therefore give the population of each district as it stood at the time of the census of that year, and column 7, showing the variation in the decade 1881–1891 gives the variations (taken from Table II of the 1891 census) between the population of each district at that census and the figures of the 1881 census adjusted for changes in the area of districts which occurred in the decade 1881–1891. Similarly with the figures in the columns headed 1871, and in column 8, giving the variations between 1871 and 1881.

In column 9, showing the variation between 1871 and 1901, two figures are entered in the case of all districts in which changes of area have occurred during that period. The first shows the difference between the figure in column 2 and that in column 5 and thus takes no account of changes in area. The second (that in brackets) gives the sum of the variations in columns 6, 7, and 8, and thus shows the difference between 1871 and 1901 in the population of the area which in 1871 constituted the district. The difference between the first and the second figure is the net result of all changes in area which have occurred in the period 1871–1901. The difference between these two figures in the case of the total for British Territory is similarly the net result of the transfers of area to and from the Presidency during the same period. The two transfers which have occurred are specified in the footnotes to the Table.

Table II.  
VARIATION IN  
POPULATION  
SINCE 1871.

## TABLE IV.

---

### TOWNS CLASSIFIED BY POPULATION, WITH VARIATION SINCE 1871.

---

NOTE.—Certain of these towns do not appear in the Imperial Tables of previous Censuses. The figures entered in such cases (which are marked with an asterisk) represent the population in the year in question of the revenue villages which now make up the town.

Table IV.

TOWNS  
POPULATION.

8

Towns classified by Population, with Variation since 1871.
